

ENGR. ALFONSO A. ALIGA, JR.

(Nee **ELENITA R. RAMIRO**)

THE UNION OF **NITA** AND **TITO** OF BACARRA created this family of five children, and five grandchildren as of 2003.

Nita grew up in Vintar, the youngest of three children of our grade school teacher, Pastora Racimo Ramiro and Lt. Rizal Ramiro of Bacarra. She graduated with an Education degree from the Northern Luzon Teachers College, and taught at the Roxas Elementary School in Quezon City, until they moved to Jakarta, Indonesia, when Tito was posted there by his company, Sycip, Gorres, Velayo & Co.

Eldest child **Alma**, graduated with an Industrial Engineering degree from UP Diliman, and she is now applying her efficiency tools to make a home for her husband, Peter Kort (of Hawaii) and their two girls, Kei (born 2000) and Janelle (born 2003). Peter is an energy economist - MBA, and works in the Finance Group of ChevronTexaco Headquarters in San Ramon, California. They live in Walnut Creek, California.

Second daughter **Grace**, finished Business Administration in UP Diliman, cum laude, and is now a junior executive with the Bank of Philippine Islands Head Office in Makati City. With husband Lyndon Saulog (of Cavite), an investment banker, they have three children: Angeli (born 1996), Jojo (1998) and RG (2000). They live in Alabang Hills, Muntinlupa City.

Third daughter **Jane** took up Psychology and masters in Educational Guidance from UP Diliman. With husband Ernic Caparoso (of Quezon City), they live in Sayerville, New Jersey, from where he commutes to his work as an IT consultant in New York City. Jane provides piano and academic tutoring to several students, and is a member of the Starlite Chorale of New Jersey.

Fourth daughter Elaine, was born in Philadelphia, Pennsylvania and is now a licensed Interior Designer. She now works as a consultant with Ashton Technologies, an interiors supplier. She is a member of the Ateneo Chamber Singers (which is touring the US West

Coast in October-November 2003), the Hangad Music Ministry, and the Parish Youth Council in Tierra Pura Homes, QC.

Vernon, born in Jakarta, Indonesia, will be receiving his Mechanical Engineering degree in April 2004 as a DOST scholar. He plans to work in industry, and also devote some time to teach at the UP College of Engineering. He is the incumbent chairman of the Engineering Student Council.

Nita is one of the livewires of the Saranay Ti Vintar. Her hands have been very busy putting up this album. She is also active with other organizations, such as the P-CORI of PSHS Diliman, the ex-Jakarta groups and the Miriam Parents Alumni.

Tito retired as partner of SGV in 2000 after 34 years with the firm. His work assignments in Indonesia and the USA enabled him to bring along his family. He is now a productivity consultant, active in the UP Engineering Foundation activities, and plays tennis regularly.

Nita and Tito have time in their hands, spending vacations with their children and grandchildren both here and in the US, and just driving home to Bacarra and Vintar when the urge arises.
